## REPORT OF THE FOREST FIRE WARDEN

---

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing co-operation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90 per cent of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your co-operation in this way is earnestly solicited.

**1948 Fire Record**

Number of fires	4
Acreage burned	4½
Number of fire permits issued	31

Respectfully submitted,

THOMAS J. KING  
District Fire Chief

GEORGE A. COOK,  
Forest Fire Warden

## ANNUAL REPORT OF THE SUPERINTENDENT OF SCHOOLS IN HOOKSETT

To the School Board of Hooksett:

It is with pleasure that I present to you my second annual report of the schools of the Town of Hooksett. The recommendations contained in this report are based upon the increased costs of education in the state and the nation caused by the increased enrollment and changing ideas together with the competitive development between schools, labor, business, and individual growth of education for all the children of all the people.

I wish to express my appreciation to the School Board, Selectmen, Janitors, Teachers, Pupils, and all other officers and citizens of the town including organizations and individuals that have helped to meet the challenge in our modern education which has confronted the children of the town. It is a task that cannot be allowed to slow down if we are to maintain the ideals in our American heritage.

The teachers, janitors, transporters, school lunch supervisors of the district during 1948-49:

Teacher	School	Grades
Sally M. Gray	Lincoln Park	3-5
Lorna M. Clough	Lincoln Park	1-2
Madeleine W. Hyde	Lincoln Park	6-8
Esther A. O'Brien	Martin's Corner	1-2
Gertrude H. Washburn	Martin's Corner	6-8
Berton D. Connerly	Martin's Corner	3-5
Josie F. Bean	Village	7-8
Edna P. Benware	Village	5-6
Dorothy S. Allen	Village	3-4
Florence M. Sullivan	Village	1-2
Mabel E. Reed	Music—all schools	1-8
Catherine E. Hammond	Lip-reading	1-8
Janitors	School	Grades
William S. Smith	Lincoln Park	1-8
Charles Hardy	Martin's Corner	1-8

Probably there are two factors which are playing a very important and vital part in the minds of all the citizens of the town, the teachers, and especially the members of the school board. These factors involve (1) the increased enrollment of pupils which will continue for the next eight or ten years and (2) the mounting costs of education which the citizens of this town and every town in this nation must meet without equivocation and directly.

In order that you may get the picture clearer concerning the problems involved in this educational growth it would not be out of place to present to you in this report a few figures relative to the town of Hooksett and the nation as a whole.

Over a period of one year the enrollment of the town has increased approximately 30 pupils.

For the first time in the state a census was taken of every child from the age of one day to 15 years inclusive. This is important in estimating the number of pupils who will be in our schools for the next five to seven years. The following table shows this data for your study:

**Table II**  
School Census taken September, 1948

Age Sept. 1, 1948	Number of Children	Grade in School	Pupils attending Public Schools	Pupils attend- ing Private and Parochial Schools
Less than 1 year	21	..	..	..
1 year	35	..	..	..

4 years	16	..	..	..

7 years	45	2-3	39	6
8 years	31	3-4	27	4
9 years	45	4-5	40	5
10 years	25	5-6	20	5
11 years	25	6-7	23	2
12 years	26	7-8	18	6
13 years	34	8-9	25	9
14 years	13	9-10	10	3
15 years	19	10-11	17	2

You can see very readily that our schools for the next few years are to be well crowded. Add this condition to the probable increase in migration to the smaller towns and you will again see the housing problem in education for the next ten years.

The following table shows the Census Bureau's forecast of future school enrollment by grades for the country as a whole together with the peak of the enrollment. This table was compiled and published by the National Education Association through the Census Bureau of the United States government.

You will note that this table has a few implications among which are:

1. That from 1947 to 1960 there is a forecasted increase of nearly 10 million children going to school,
2. That the peak years vary considerably in the Elementary School but hold fairly constant in the High School,
3. That the town data coincides quite closely with the national data in comparison. This is also true for the entire Union,
4. That in studying the table one is able to note the increased costs of education in the enrollment enumeration and the necessary teachers, supplies, floor space, equipment, and general administrative and supervisory expenses on both the local and national levels,
5. That although the high school graduates do not keep pace with the number of children entering either Grade One or Grade Nine, it is nevertheless, significant that with increasing costs of education, high school tuitions will also become just as great a factor in the next ten years in the local budget as it is today.

Let us break down some of the local costs to see just where these growing costs have developed. In the following tables you will find a few of these costs.

**Table IV**

Cost of Instruction per pupil for the Elementary Schools  
(Local)

1946-47	1947-48	1948-49*
\$62.56	\$62.09	\$79.13

---

\* Taken from the budget.

**Table V**

Cost of Instruction for High Schools  
(State average)

1946-47	1947-48	1948-49
\$123.79	\$138.89	\$158.74

Note: There is no doubt that the probable cost for 1949-40 will be \$180.00.

**Table VI****Current Costs Per Pupil**

(Not Fixed Assets, Capital Outlay or Debt) (Local)

1946-47	1947-48	1948-49
\$140.76	\$154.29	\$181.25

Note: The average State Costs for 1948-49 was about \$212.00.

**Table VII****Total Costs Per Pupil for Expenditures for the Local Schools**

1946-47	1947-48	1948-49
\$160.06	\$171.65	\$200.48

**Table VIII****Total Tuition Costs paid to Schools to which graduates of the Hooksett Schools attend**

1946-47	1947-48	1948-49
\$7,124.59	\$9,557.01	\$13,200.00

In studying this data, it must be kept in mind that Tuition Costs, Teachers' Salaries, Books and Supplies, Labor and Material Costs, together with the general increase in the cost of living has contributed very substantially to the increased cost of the budget. This can be vividly shown by the increase in the amount paid for a beginning teacher for the past three years. In 1945 the teacher just out of college was paid about \$1,400; today and for the beginning of the fall term of school these teachers are going to get \$2,200.

During the past year it has become necessary to divide grades 1 to 4 at Martin's Corner and engage another teacher for the school. Plans are being set in motion to divide grade 1 and 2 at the Village School because of the increased enrollment. This means that a new room must be finished to meet state requirements and another teacher must be hired.

If it is possible to project yourselves into the future you might tarry awhile with the fact that it is possible and maybe probable that we shall lose more than half of the State Aid for schools if we are to believe the

signs. Can a school board duly elected by the people to represent them in the educational development of the youth of the town pass lightly over such a statement and make preparations taking into consideration possible deductions for such aid and to meet any emergency?

It would be unfair to you and to the boys and girls of the Town of Hooksett if, after a year of careful consideration of the school situation, I did not point out to you the recommendations which seem to me to be of the most importance. I therefore call your immediate attention and consideration to the following:

1. Teachers' salaries are still on the increase. Careful study should be made of this important phase of the school budget in comparison with the rest of the state and the nation.
2. Adequate provision should be made to see that all youngsters receive the necessary supplies, books, and equipment to meet a changing and dynamic life at school.
3. Keep in mind the need for increased expansion and the necessary funds to meet such emergencies with a long time building program.
4. You cannot overlook the status of the School Nurse in her associations with the children of the town if you are to maintain a healthy and courageous growing citizen.
5. The school lunch program must be enlarged and developed to make it an important and functional part of the educational system of the town.
6. The time has come to think and plan for the consolidation of the schools of the town if education is to keep pace with the democratic expansion of our country.

Again I wish to thank the Board as a unit and as individuals for the trust and confidence shown to me in my endeavor to make the schools of Hooksett a part of life and living of the community, state, and nation.

Respectfully submitted,
